

I'd like to say a few words about K-Love, and their impact on the community in which I live.

I am a resident of Cary, NC. I listen to K-Love radio quite often, and support them financially. They provide a positive impact on the community at large (Raleigh, Cary, Durham) by offering support to the listening community. They accomplish this through encouraging and positive programming, by sponsoring charity events, by providing the listening community the opportunity to call in and speak with someone about their concerns.

If K-Love wasn't broadcast in my area, some people would not have a resource to turn to for support and understanding. The other stations in the area simply do not service the community in this way. Many youth would no longer have the alternative to listen to positive programming (offered on K-Love), but would return to listening to the popular programming offered by other traditional stations which centers mostly on sexual topics.

K-Love is a great station, and if they are removed from my listening area, I will have to look for another way to listen to them... either via internet or via satellite radio.

Thanks for considering my opinion.

Kind Regards,

Kimberly Ragan
